EZ EDGE

LoRa

Benefits

- Seamless integration of IOT edge devices
- Hardware vendor agnostic Multi Communciation protocol
- AWS Cloud-based, secure data management
- Device auto configuration
- Modular PCB Design

Features

- 4 x Analog IO's
- 10 x Configurable Digital IO's
- LoRa, WiFi, Bluetooth, LAN
- RS485 & Wiegand
- Secure token based encryption
- Multi voltage support 9-36V
- Up to 10km range

Mobile App

- WiFi & BLE Device Provisioning
- Realtime monitoring & control
- Automation rules
- Anomaly Detection & Push Notifications

IOT Portal Management

- Users
- Sites
- Assets
- Devices
- Rules
- BI
- Communication
- Reports
- Automation
- GEO maps
- Workflow
